

# Dedicated Servers

For larger corporate sites or resellers, our range of Dedicated Servers offer reliability, power and independent management, from an easy to manage control panel. We can also provide a complete suite of management solutions for those that wish to focus more on their business objectives rather than their IT systems.

With a choice of Servers in stock and ready for quick deployment, along with configurable options available and a team of experts on hand to offer free advice, you can be assured that Netcetera can provide you with a server solution that will be within your budget and meet all of your demands.

There are many advantages to having your own server but some of the main benefits are:

- Security - your own equipment, not shared hosted in a secure purpose built facility
- Reliability - guaranteed uptime with an industry leading SLA Agreement
- Support - 24/7 technical support with Netcetera handling all the daily operations of servers including all maintenance and updates.
- Upgrades available
- Save money on capital costs with low fixed monthly payments
